

**Virginie Améaume**

Passionate about Nature and the creation of human links, Virginie likes photography and writing.

Through photography, she looks for the Light, which supports the vitality in front of our shadows.

She enjoys capturing these moments where the Nature enlightens our lives, in order to remind us about our belonging to this earth, and the invisible connections.

Words create the link. They testify the intensity of our inner life.

After 30 years of experience in Supply Chain European management, Virginie is now involved in recruitment for the company TOD ([www.yourtod.com](http://www.yourtod.com)) in order to support human values, and promote individual talents to serve a group.
